Overview

This document reviews the transaction process to enter a faculty member as an active Emerita/us in UCPath, associated with a WOS (without salary) position following a retirement.

There are two parts to this process:

- **Part 1** is retiring the employee
- **Part 2** is hiring the employee back as an Emerita/us

### UCPATH Terminology for Retirement Template

<table>
<thead>
<tr>
<th>Term</th>
<th>Description</th>
</tr>
</thead>
</table>
| **Effective Date**    | This date is entered in the **Effective Date** field for use within the **UC_RETIREMENT** template transaction. This date reflects the first day the employee is no longer on active HR status.  
  - Note: The effective date does not reflect the first day of retirement. The first retirement day should be coordinated with the employee’s work Location and UC Retirement Administration Service Center (RASC). |
| **Last Date Worked** | This date is entered in the **Last Date Worked** field for use within the **UC_RETIREMENT** template transaction. This date reflects the last date the employee physically worked. This date must be at least one day prior to the **Effective Date** but could be earlier. |
| **Termination Date**  | This date is located on the **Work Location** tab within **Job Data** and is derived by the system after the retirement template is processed. This date reflects the last day the employee was on active HR status.  
  - Note: The UC RASC will receive this as the “separation date.” |

⚠️ The **Effective Date** and **Last Date Worked** are the only dates needed to complete the retirement template in UCPath.
Process Steps

Part 1: Submit a UC RETIREMENT Smart HR Template to inactivate the employee prior to the last business day in June. For this example, 6/30/2023 is used as the effective date:

1. Select the UC RETIREMENT Smart HR Template
2. Enter 6/30/2023 in the Effective Date field
3. Enter the Employee ID and select the Employment Record Number
4. Accept the default of 6/29/2023 in the Last Date Worked field, or enter the employee’s actual last working date if prior to 6/29/2023
5. In the Comments field, note that this employee will be rehired as Emerita/us, effective July 1st
6. Enter any additional Comments or Supporting documents as needed

⚠ Academic year employees should only retire at the end of a quarter or semester pay period to avoid an under or overpayment.

- For locations on a quarter system the dates for the UC RETIREMENT template are as follows:

<table>
<thead>
<tr>
<th>Quarter</th>
<th>Effective Date</th>
<th>Last Day Worked</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall quarter</td>
<td>November 1</td>
<td>October 31</td>
</tr>
<tr>
<td>Winter quarter</td>
<td>March 1</td>
<td>February 28/29</td>
</tr>
<tr>
<td>Spring quarter**</td>
<td>July 1</td>
<td>June 30</td>
</tr>
</tbody>
</table>

- For locations on a semester system the dates for the UC RETIREMENT template are as follows:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Effective Date</th>
<th>Last Day Worked</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall semester</td>
<td>January 1</td>
<td>December 31</td>
</tr>
<tr>
<td>Spring semester**</td>
<td>July 1</td>
<td>June 30</td>
</tr>
</tbody>
</table>

**For employees who retire at the end of the spring semester/quarter and qualify for the Inactive COLA, dates may vary by year. For detailed assistance in entering retirement actions for employees who qualify for the Inactive COLA, refer to the Job Aid: Retirement Transaction Process for July 1 Retirement Date.
**Part 2: Activate the Emerita/us employee**

- Prior to initiating the template, make sure an Emeritus position has been created and is available for use. Refer to the [Initiate New Position Control](#) simulation for information on position setup.

1. Select the **UC_FULL_HIRE_AC** Smart HR Template, creating a new Empl Record for the Emeriti appointment. You do not have to wait for the retirement template to be processed by UCPath to submit the full hire template. UCPath will add the Emeriti appointment after the retirement template is fully processed and reflected in UCPath.

2. Enter the **Effective Date**

3. Select **Emeritus Faculty** from the **Action Reason** list

4. Select the appropriate **Emeritus WOS** position

5. Enter **UCWOS** for the **Comp Rate Code**

6. In the **Comments** field, note that the employee will be rehired as Emerita/us

**Additional Resources**

- Simulation: [WFAL260: Initiate Retirement Template Transaction](#)  
- For specific steps on entering a payroll request or final pay, refer to the [PAYL200: Additional Compensation and Pay Adjustment Requests](#) course and applicable simulations.

This process only addresses the actions in UCPath. Standard Retirement Administration Service Center (RASC) retirement business processes and Academic Personnel Manual ([APM-120](#)) policies must be followed.
