**Legal Name** values display first, followed by **Name** values.

**Legal Name** is the name that identifies a person for legal or certain official purposes. In UCPath, these are always labeled as “Legal Name” and never as “Name”. Its presentation and use are restricted to protect confidentiality.

Use the **Update My Legal Name** task to update your **Legal Name**.

**Name** is a self-chosen or personal and/or preferred professional name used instead of a **Legal Name**. This name is used for university business and education whenever possible. It is the standard UCPath name field used and presented on pages and reports throughout the system. These are always labeled as “Name” and never as “Legal Name”. **Name** fields are initially populated from Legal Name fields.
