**UCPath Task:**
**Update My Legal Name**

**Step** | **Action**
--- | ---
9. | The **Edit Legal Name/Name** page appears.

**Legal Name** values display first, followed by **Name** values.

**Legal Name** is the name that identifies a person for legal or certain official purposes. In UCPath, these are always labeled as “Legal Name” and never as “Name”. Its presentation and use are restricted to protect confidentiality.

Use this task to update your **Legal Name**.

**Name** is a self-chosen or personal and/or preferred professional name used instead of a **Legal Name**. This name is used for university business and education whenever possible. It is the standard UCPath name field used and presented on pages and reports throughout the system. These are always labeled as “Name” and never as “Legal Name”. **Name** fields are initially populated from Legal Name fields.

Use the **Update My Name** task to update your **Name**.

---

**Step** | **Action**
--- | ---
10. | **Legal Name** value changes require approval before being applied. During the approval process, **Name** value fields are locked down and cannot be changed.

**Name** values can be changed at any time and as often as desired, provided **Legal Name** changes are not in process. Changes are automatic, with no delay times.
